Slawter Darren Shan

Plot Summary

This book happens one year later after Lord Loss which is another book. In that book Dervish had gone to fight Lord Loss and returned right at the end of that book. In this book that journey continues. Dervish comes back from the Demon world and has a lot of problems with his brain. He acts really weirdly and most of the times, he looks like he is crazy. But Grubbs takes care of him. One day a woman who is from the lambs called Prae Athim comes and visits Dervish and Grubbs. She wants Bill-E who is Grubbs's half brother. They say they want him because they want to experiment on him since what happened to him in the first book. Read the first book, it's really good. Another day, Davida Haym comes to visit who is a movie star and wants them at the Slawter set. When Bill-E, Dervish and Grubbs go to the Slawter set, weird things start to happen and before it's too late they must escape. To catch the full horror read the most best series ever. The Demonata Series.

Plot High Point

The highest point in this book is what happens in the end. Grubbs, Dervish and Bill-E find out the truth but really bad things happen at the end. You would wish it was a happy ending but this book seriously does not have a happy ending. I think that's the most exciting action in the book. The end of it.

Main Characters

Grubbs- His real name is Grubbistch Grady. He is 16 years old and doesn't have any parents. His only sibling and parents died to Lord Loss. Now he lives with his uncle, Dervish. Uncle Dervish- He is Grubbs uncle. He is a really nice and helpful person. But he tries to cure his madness. Bill-E- Bill-E Spleen is Grubbs's half brother and Dervish's nephew. Grubbs and Bill-E are really close brothers. Davida Haym- She is a horror movie producer. She makes Grubbs and Dervish go to Slawter with her. But she really isn't a nice person. Prae Athim- A prominent member of the Lambs, a group who fights lycanthropy and kills infected teenagers.

Setting

This book takes place in the Slawter set and also at Dervish's mansion. This book is in present tense. The Slawter set is a very creepy place.

Personal Opinion

I thought this book was really interesting because it continued the series using the first book which makes me want to read it. I liked the description in the book. I liked it a lot when the book was taking place in the Slawter set but, I didn't like it when it was taking place at Dervish's mansion because there was only talking there.
